Disposal (Ton)		\$	\$
Concrete (Cubic Yard)		\$	\$
Gravel (Ton)		\$	\$
Expansion Joint (Feet)		\$	\$
Total:			\$

I \_\_\_\_\_ (print), being the property owner or representative, for the above address, do hereby agree to pay for all costs of material incurred for the repair/installation of new/existing sidewalk as indicated above. I have read the City's Sidewalk Replacement Program brochure and policy, also attached hereto and incorporated herein by this reference, and agree to its terms and conditions.

The City's Public Works Director will determine the scheduling and priority of sidewalk replacements based on the need to most effectively improve public safety and benefit. Examples of the factors that will be considered in ranking projects are the severity of safety hazards; volume of pedestrian traffic; visibility of condition; length of time that the condition has existed; and availability of City resources.

Depending upon the availability of City resources and the demand for program services, the time required for a sidewalk to be constructed may be a lengthy period. During this time period, property owners retain their normal responsibilities for the condition of the abutting public sidewalk. For this reason, property owners may need to perform interim measures to mitigate sidewalk hazards. *Estimated costs will be updated annually so that property owners have the most up to date financial information.*

*I understand that this is an estimate only and that I am responsible for paying all costs associated with this Sidewalk Replacement Estimate.*
